Get To Know Your Watershed Map Activity

Directions: *Answer the following questions as best as you can and map out your answers on the outline below or create your own map with your region.*

- Who are the Tribes that are connected to your water sources?
- What are the colonial infrastructures that provide or service your water? (dams, aqueducts, etc.)
- Where are the Tribal communities in your region today?
- What are my relationships like with the Native Peoples whose water I consume?
- How are current ecological challenges in your region a reflection of its colonial past?
- Who are the Native flora and fauna?
- Were there salmon in your watershed at one point?
- What was the Native economy for the region?
